

Stay Ease Change log

Changes made

In part 2 of this project, CSS was added to my website. I added a stylesheet to my html folder to connect the CSS to my website using external CSS

```
body { font-family: Arial, sans-serif; background-color: beige; margin: 0; padding: 0px; }  
  
/* heading */ h1 { color: darkred; } h2 { color: goldenrod; } h3 { color: darkred; }  
  
/* navigation Bar*/ nav { background-color: darkred; padding: 15px; } nav a { text-decoration: none; color: beige; padding: 15px; font-weight: bold; }  
  
nav a:hover { color: gold; } /* paragraphs */ p { color: black; font-size: 18px; padding: 10px; }  
  
/* images */ img { border-radius: 10px; display: block; margin: 15px 0;}  
  
/* home image */  
  
.homeimage { width: 100%; height: 500; object-fit: cover; }  
  
/*lists */ ul { list-style-position: inside; }  
  
/button/ button { background-color: darkred; color: beige; border: none; padding: 10px 20px; cursor: pointer; font-size: 5px; } button:hover { background-color:darkred; color: white; }  
  
/map/  
  
iframe { border-radius: 10px; margin-top: 20px; }  
  
/horizontal line/ hr { border: 1px solid darkred; }
```

In part 3 JavaScript was added to my website to add search optimization and function optimization

```
document.addEventListener("DOMContentLoaded", function () { initAutoDate();  
initLightbox(); initListings(); initEnquiryForm(); initContactForm(); });  
  
/* ---- 1. Automatic date ----- */ function  
initAutoDate() { const dateSpan = document.getElementById("todayDate"); if  
(!dateSpan) return; const today = new Date(); dateSpan.textContent =  
today.toLocaleDateString("en-ZA", { weekday: "long", year: "numeric", month: "long",  
day: "numeric" }); }
```

```

/* ---- 2. Image lightbox (click to enlarge) ----- */ function
initLightbox() { const thumbs = document.querySelectorAll(".lightbox-img"); if
(thumbs.length === 0) return;

const overlay = document.createElement("div"); overlay.id = "lightboxOverlay";
overlay.style.cssText = "display:none; position:fixed; inset:0;
background:rgba(0,0,0,.85);" + "align-items:center; justify-content:center; cursor:zoom-
out; z-index:1000;";

const bigImg = document.createElement("img"); bigImg.alt = "Enlarged image";
bigImg.style.cssText = "max-width:90%; max-height:90%; border-radius:6px;";
overlay.appendChild(bigImg); document.body.appendChild(overlay);

thumbs.forEach(function (thumb) { thumb.style.cursor = "zoom-in";
thumb.addEventListener("click", function () { bigImg.src = thumb.src; bigImg.alt =
thumb.alt || "Enlarged image"; overlay.style.display = "flex"; }); });

overlay.addEventListener("click", function () { overlay.style.display = "none"; });
document.addEventListener("keydown", function (e) { if (e.key === "Escape")
overlay.style.display = "none"; }); }

/* ---- 3. Dynamic listings with search / sort ----- */ function
initListings() { const itemList = document.getElementById("itemList"); if (!itemList) return;

// TODO: replace with Stay Ease's real listings. const items = [ { name: "Sea-facing
studio, Sea Point", price: 850, category: "Cape Town" }, { name: "Garden cottage,
Stellenbosch", price: 650, category: "Winelands" }, { name: "Loft apartment, Maboneng",
price: 720, category: "Johannesburg" }, { name: "Beach bungalow, Ballito", price: 990,
category: "KZN" }, { name: "City studio, Pretoria CBD", price: 550, category: "Pretoria" },
{ name: "Mountain chalet, Hogsback", price: 780, category: "Eastern Cape" } ];

const searchBox = document.getElementById("searchBox"); const sortBox =
document.getElementById("sortBox");

function itemToCard(item) { return ( '
' + " + item.name + " + 'R' + item.price + '/night' + '
' + item.category + '
' + '
' ); }

```

```

function renderItems() { const searchText = searchBox ?
searchBox.value.toLowerCase().trim() : ""; const sortBy = sortBox ? sortBox.value :
"name";

let visible = items.filter(function (item) {
    return item.name.toLowerCase().includes(searchText);
});
visible.sort(function (a, b) {
    if (sortBy === "priceLow") return a.price - b.price;
    if (sortBy === "priceHigh") return b.price - a.price;
    return a.name.localeCompare(b.name);
});

itemList.innerHTML = visible.length === 0
    ? '<p>No listings match your search. Try a different word.</p>'
    : visible.map(itemToCard).join("");

}

if (searchBox) searchBox.addEventListener("input", renderItems); if (sortBox)
sortBox.addEventListener("change", renderItems); renderItems(); }

/* ---- 4. Enquiry form (enquiry.html) ----- */ function
initEnquiryForm() { const form = document.getElementById("enquiryForm"); if (!form)
